9.3 Client's entitlement to Stored Product

- (a) The Client may deal with a quantity of Stored Product which is equivalent to a relevant quantity of Product received by QBT from the Client (the **Client's Entitlement**), and that Client's Entitlement will be taken to be the relevant Product received.
- (b) For the purposes of this Agreement, the Client's Entitlement will be determined by QBT, according to the following formula:

$$\text{Entitlement Tonnage} = \text{Total Receival Tonnage} - \text{Total Shrinkage Tonnage of Consignments}$$
- (c) For the avoidance of doubt, the Client's Entitlement represents an ownership right to product of a similar type and grade to the Product delivered by the Client and tested by QBT (i.e. and not necessarily the actual Product delivered by the Client).

9.4 Dealings with Client Entitlement

- (a) The Client may deal with the Client's Entitlement as follows:
 - (i) with the prior written consent of QBT:
 - (A) transfer all or part of the Client's Entitlement to an Other Client or prospective user of the Facility via completing a Stock Transfer Form; or
 - (ii) remove the Client's Entitlement from the Stored Product in accordance with clause 6 or Clause 7.

10. Conditions of Services

10.1 Shrinkage allowance

- (a) A shrinkage allowance (the **Shrinkage Allowance**) of 0.6% of the quantity of the original Consignment delivered (or Client's Entitlement, if applicable) will be deducted in respect of all Receival Tonnage (For clarification, if 100 tonnes of Product is received, after allowing for the Shrinkage Allowance only 99.40 tonnes will be Outturned.)
- (b) After the Shrinkage Allowance has been deducted, title in the shrinkage residue (being a volume of Product representing the shrunk tonnage) will be taken to have transferred to QBT.
- (c) Any dust extracted from the Facility during the Outturning of a Consignment is included in the Outturn Tonnage and remains the property of the Client. Unless the Client requests otherwise, QBT will dispose of dust following the Outturning of a Consignment.
- (d) The Client acknowledges and agrees that Receival Fees and Storage Fees payable by the Client in accordance with this Agreement will be levied against the Receival Tonnage, the Outturn Fee will be calculated having regard to the Shrinkage Allowance.

10.2 Differences in Outturn Tonnage and Client's Entitlement

- (a) If the Outturn Tonnage (either via vessel or road) for a Consignment (after accounting for the Shrinkage Allowance) is more than the Receival Tonnage, then the Client must (as QBT requires):
 - (i) pay to QBT the fair market price at the time of Outturning for the excess amount of Product Outturned; or
 - (ii) replace the excess Product Outturned with Product of the same type and Grade.
- (b) If the Outturn Tonnage (either via vessel or road) for a Consignment (after accounting for the Shrinkage Allowance) is less than the Receival Tonnage, then QBT will (at its discretion):
 - (i) make available to the Client for Outturning an additional amount of Product equivalent to the shortfall of the same type and Grade; or
 - (ii) pay to the Client the fair market price at the time of Outturning for the Product not received, having regard to its type and Grade.
- (c) If at any time the Client's Entitlement to the Stored Product of a particular type and grade is less than one tonne, the Client's Entitlement to that Stored Product will be deemed to have no value and neither party will have any liability to the other in respect of it.

10.3 Record-keeping

- (a) QBT will keep separate records of the Receival Tonnage and Outturn Tonnage determined pursuant to clauses 4.4, 6.4, and 7.4 for each type and Grade of Product received and Outturned.

- (d) The Client warrants that any information or documentation it provides or arranges to be provided to QBT (including all shipping or other documents) which contain details of type, grade, origin, location and treatment of Product (**Client Documents**), will contain accurate, complete and

truthful statements and descriptions, and the Client indemnifies QBT from and against any Claim or Loss suffered, threatened, commenced or arising in any way out of any misrepresentation or error.

10.4 Stock Information

- (a) QBT will provide the Client with current Stock Information in the form agreed between the parties on a daily basis.
- (b) QBT will use its best endeavours to provide current Stock Information to the Client in a timely and accurate manner. However, QBT is not liable to the Client or any other person for any Claim or Loss arising out of or in connection with the supply of Stock Information. The Client expressly releases QBT from any Loss suffered or incurred by the Client in connection with any Claims relating to any Stock Information.

The amount of the bank guarantee or security deposit may be reduced if QBT so agrees and must be increased should QBT so require as the amount of Product expected to be the subject of this Agreement decreases or increases. If the Client has an obligation to provide a bank guarantee or security deposit under more than one agreement with QBT, it may provide the one bank guarantee or security deposit to meet the requirements of all agreements it has with QBT, so long as the total security provided is sufficient to cover the amounts required in each of the agreements; or

- (b) QBT has received the Product in accordance with the Receival Standards or other minimum receival specifications and sampling methodology agreed in writing between QBT and the Client;
- (c) the Client has requested QBT to blend two or more grades of Product into one grade of Product and the blended Product is at least the same quality of the lower grade; or

- P = the fair market value of the Product, had it not been downgraded, on the date at which the Claim was made; and
- V = the fair market value of the Downgraded Product on the date at which the Claim was made.

16.3 Claims

Where a Claim is recognised by QBT to be valid and QBT agrees to compensate the Client or, in any other event where QBT is liable to compensate or indemnify the Client, then QBT's maximum liability in respect of any Claim will not exceed \$150,000 per event.

16.7 Chemical residues

QBT does not take any responsibility for chemical residues detected in any Product.

16.8 Non-conformity of the Product

The Client acknowledges that QBT, while using best endeavours to Outturn Product in accordance with the Receival Standards, is not liable for any non-conformance to the specification where the attribute does not form part of the original testing procedure or cannot be comprehensively determined by QBT at the time of receival at the Facility. This includes, but is not limited to, the presence of objectionable, toxic and chemical residues.

17. Exclusion of liability

17.1 General exclusion

The Client acknowledges that any transportation of the Product, except where undertaken by QBT, is at the Client's risk, and QBT is not liable for any Loss incurred by the Client caused by or otherwise relating to the transportation of Product.

Where Product of any person other than the Client is affected by a contaminant or residue but is nevertheless delivered to the Facility, QBT will not be liable to the Client or to any other person for any loss (including Consequential loss), cost, damage or

expense suffered or incurred directly or indirectly as a result of that contaminated delivery.

17.4 Time delays

Without limitation, QBT is not liable to the Client or any third party, or any person claiming through or on behalf of the Client, for any costs, losses or delays, whether direct or indirect, that may arise if a Consignment cannot be Outturned from the Facility at the designated time for any reason.

18. Force Majeure

- (a) If any party is prevented, hindered or delayed from performing any of its obligations under this Agreement (other than an obligation to pay money) by an Event of Force Majeure, then as long as that situation continues, that party will be excused from performance of such obligation to the extent it is so prevented, hindered or delayed, and the time for performance of such obligation will be extended accordingly.

- (a) If the Client does not procure the Product to be Outturned from the Facility within one month of the termination of this Agreement by QBT under section 19.1, as a result of a contract breach by the Client, then the Product will be deemed to have been abandoned by the Client and to have become the property of QBT, which may at its option cause the Product to be removed or stored in the manner QBT in its absolute discretion considers fit (at the risk and at the cost of the Client).
- (b) If this agreement is terminated by QBT under section 19.1, as a result of a contract breach by the Client, the Client must pay to QBT on demand (as a liquidated debt) any costs incurred by QBT in exercising its rights to remove and store the Product not so removed by the Client.

19.4 Rights after termination

Termination of this Agreement will not prejudice any rights of either party that have accrued prior to the date of termination and the provisions set out in clauses 12, 16,17 and 24 will survive termination of this Agreement.
